- 50-name and number Call Log*
- Three-line backlit display — for easy viewing, day or night
- Secure Numbers — for privacy in entering personal codes
- 50-name and number Directory
- Eight programmable memory keys
- Five-number redial
- Hearing aid compatible

Building success with the business telephone leader

The 9316CW takes the mystery out of who's calling. Equipped for Caller ID and Call Waiting Display, the 9316CW shows you who's calling, even when you're on another call*. The adjustable three line, backlit display provides all caller information on one screen for "at a glance" viewing. The LINK key lets you switch between calls without worry of accidentally disconnecting a caller. And the 50 name and number Call Log keeps a record of all your incoming calls*.

Outgoing calls are easy, too, with the 9316CW. On-hook dialing and a high quality speakerphone mean you can make calls without ever picking up the receiver. Program the memory keys with frequently called numbers or feature

codes, like your Voice Mail access number. The Secure Numbers feature protects your privacy by letting you enter passwords or personal codes without revealing them on the display.

You can even create your own Directory, so the numbers of business contacts and family members stay right at your fingertips, for fast and easy dialing.

The 9316CW offers a host of convenient features that meet the needs of today's busy families and businesses. When it comes to saving time, it's no mystery that the 9316CW is the right phone for the job.
