

HSL10 Handset Lifter

- ▶ Allows picking up and hanging up a telephone handset automatically when using a wireless headset and away from the desk phone
- ▶ The mechanical hook switch supports nearly all prevalent standard desktop phones
- ▶ Comes complete with connecting cables and microphone

Used in combination with a Sennheiser Communications wireless solution, the handset lifter HSL 10 completes the wireless package. It enables you to conveniently answer calls and hang up again while away from your desk.

- ▶ Enables answering and terminating calls while away from your base station (telephone)
- ▶ Supports most standard desktop phones
- ▶ High quality microphone allows ring tone detection of two different ring tones of your telephone (e.g. external and internal calls)
- ▶ Lightweight and compact designed, it perfectly fits your telephone without using much space
- ▶ The lifter can be extended and thus allows for customized use
- ▶ "Easy adaptation kit" facilitates connection to different phone styles
